№ 01/43818

04 / July / 2017

To: Loewenstein Hospital -Rehabilitation Center

Dear Sir/Madam,

The Ministry of Labour, Health and Social Affairs of Georgia is aware and welcomes the desire of the Georgian GSH Foundation to develop a Rehabilitation Center in Georgia for disabled people.

This project is funded by the Foundation's own resources and, afterwards, should be gratuitously transferred to the ownership of the State of Georgia, which will then run it.

Our Ministry is deeply involved at all levels in this challenging and extremely important for Georgia medical project.

The admirable mission led by the GSH Foundation of building in Georgia capabilities for disabled people's physical rehabilitation and their integration into society, is coordinated with us and fully supported.

The Ministry is aware of the Georgian delegation's [Project Management Team] scheduled visit to your Center in order to be acquainted with the medical, infrastructural and operational elements of your Hospital. Unfortunately, our representative couldn't take part in this visit at this time but we've already planned further meetings with the visiting group members that expected to take place immediately after their return to Georgia.

Along these meetings we intend to finalize the project specification, and will consider professional cooperation with your Medical Center.

Let me express the Ministry's and my personal appreciation to your Center for hosting our Project Management Team.

Hope we could see fruitful collaboration between the Ministry and your Center, in the rehabilitation and other medical fields.

Sincerely,

Minister

David Sergeenko
