Hi Vaxo,

Please, find attached the edited version of the reference and let me know whether it is OK. I made it less emotional and somewhat better structured.

Please, feel free to suggest any improvements, which you think will be needed.

I can sign this but can also ask Marita to sign one on PEM's letterhead if needed.

No sign from PEM so far on possible contract extension as PEM's contract is not extended yet formally.

In any case it is privilege to work with you and I am very grateful for your valueless support, understanding and capability to respond at shortest notice sometimes☺

Kindest regards,

Valentin
