NOW is the TIME

The COVID-19 crisis has dramatically disrupted our daily life and exposed major vulnerabilities in the healthcare system. **Even countries with well-developed healthcare system are facing challenges** they have never experienced before. We are aware of the concerns raised by the COVID-19 outbreak and HIRA decides to host virtual the International Symposium on the COVID-19 Pandemic. This is a crucial moment in time as we observe a myriad of storms that are gathering related to the COVID-19. We need to use our voice, influence, and energy for progressive change by sharing each country's case so that healthcare **system can become nimble and capable of transformation**. The goal of this conference is to collect information about experiences related to the COVID-19 outbreak management in different countries **for better universal health coverage and flexible healthcare system**.
